

TERMS OF ACCESS TO THE “TRAILS” LINK

www.perthtourism.com.au

1. The links which follow (“the links”) are to sites which are owned and operated by third parties and which are therefore not under the control of the Eastern Metropolitan Regional Council (“EMRC”).
2. The links are provided for your convenience only and do not imply any endorsement by EMRC of the link site.
3. The links and their contents have not been checked for currency and accuracy by the EMRC.
4. The links and their contents do not give rise to any representation or warranty of accuracy by EMRC.
5. EMRC has not inspected or assessed any of the trails referred to in the links and does not do so on an ongoing basis and is therefore:
 - (a) Not aware of any hazards on and around the trails;
 - (b) Not aware of the condition of the trails;
 - (c) Not aware of the standard and level of difficulty of the trails.
6. Visitors should make their own independent enquiries and satisfy themselves about the condition of the trails and their suitability for their own circumstances.
7. Visitors should seek independent medical advice about the suitability of the trails for their own level of ability.
8. Any trademark depicted in the links is for information purposes only and are not intended, and nor shall it be, an endorsement or recommendation by or on the part of EMRC.
9. EMRC accepts no liability or responsibility whatsoever for any injury, damage or inconvenience for any reason whatsoever including the negligence of EMRC resulting from your reliance upon or use of the links or your use of the content depicted therein.
10. EMRC shall not be responsible and accepts no liability for any errors or omissions in the information contained in the links.
11. EMRC shall not be liable, in negligence or howsoever, for loss, damage, liability or inconvenience suffered by you or any other person resulting from any action or decision in reliance upon the material on this website, or any propagation of computer worms, virus, internet access difficulties, malfunction in equipment or software, interruption, communications, failure or delay in operation.
